TEMPORARY HOUSING OF HORSES, FOR DAVIE RESIDENTS

Before and After a Hurricane:

The bond between horses and their human owners is strong. Horse owners in hurricane prone areas have a large responsibility to be sure that their animals are provided for in the event a hurricane threatens their area. As in many areas of our lives, planning well in advance pays off. Waiting until the storm watch is posted may be too late for you and your animals.

Remember...

A **storm watch** means a hurricane poses a threat to the area within 36 hours.

A **storm warning** means a hurricane is expected to strike the area within 24 hours.

Make arrangements well before hurricane season (begins June 1 of each year) to insure that your animals have the best chance to survive injury free.

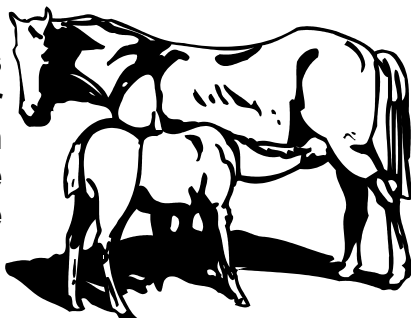

Local Hurricane Turn-out Site Location

Once a hurricane warning has been issued, a site located at **4005 Hiatus Road/Robbin's Lodge Park**, for horses owned by Davie residents only will open. This site will reopen to retrieve your horses when the winds have subsided to a minimum of 40 mph.

Important:

You are encouraged to visit the site for yourself before completing your registration form to determine whether you feel it is safer than your current situation.

Remember, this turn-out site is for horses that live in Davie or are owned by Davie residents ONLY.

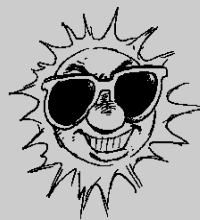

Broward County

Broward County already has in place the "Large Animal Disaster Plan" which identifies all post hurricane needs for horses. Summarized, the plan includes coordination of and information about:

1. Identification of Veterinarian Mobile Units. There are currently nine units.
2. Large Animal Disaster Emergency Response Team.
3. Livestock transportation available after a hurricane.
4. Valuable tips and referral sources for horse owners.

The Broward County plan is adequate in addressing the vital issues in case of injury of horses as well as facilities to hold them after the storm in case a horse is injured or cannot be immediately claimed by the owner. Please visit their web site at: **www.broward.org/disaster** or **contact them at (954) 831- 4000.**

Therefore, on a local level, we have concentrated our efforts in directing the development of a temporary neighborhood center to serve as holding area before and during a hurricane for **Davie residents only**.

If you have any questions, please do not hesitate to contact **Bonnie Stafiej, Director of Special Projects** at (954) 797-1163 or **bonnie_stafiej@davie-fl.gov**. When a storm warning is issued is not the time to call with questions, do it now.

To Register,
Complete all of the following forms.

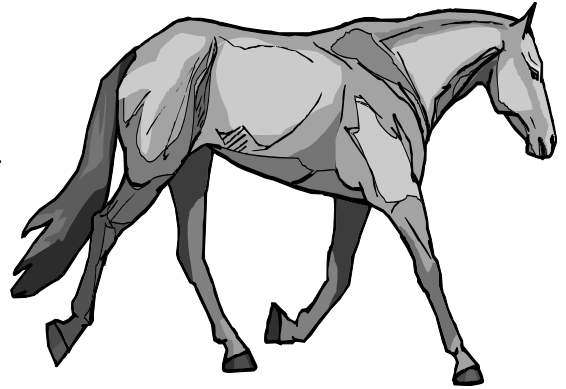

Registration Procedure

A registration fee of twenty dollars (\$20.00) per horse will be required and included with your registration forms.

Please register your horses well in advance. The number of horses accepted is limited. For more information, contact Bonnie Stafiej, Special Projects Director, at (954) 797-1163, bonnie_stafiej@davie-fl.gov or mail a self-addressed stamped envelope with your name, address, and zip code to:

**Town of Davie
Temporary Housing for Horses
6591 Orange Drive
Davie, FL 33314
Attn: Bonnie Stafiej**

Please mail or bring by your completed forms and payment to the above address. A confirmation form will be mailed to all accepted horse owners. Applications received without the above forms will be mailed back to applicant without a confirmed reservation.

Animal Identification

Positive identification for each horse must be confirmed before removing your animal(s) from the site.

Identifying your animals well is a crucial part of getting them returned to you in the event that they get loose during a disaster. There are a number of recommended ways of clearly identifying your horses:

1. Spray paint your telephone number, including the area code, on the side of the animal with a contrasting shade of acrylic paint
2. Braid luggage tags into the mane and tail with your name, address, and telephone numbers, and possibly with the numbers of out of the area contacts. Be sure the information is written in water proof ink, and tape the tags to water-proof them further
3. Fetlock or mare bands with the appropriate information in waterproof ink
4. Put the information in a sealed plastic bag, and tape it securely to the halter
